

American International School of Law

October 18, 2021

James Frederick Polk
3609 Mary Lane
Escondido CA, 92025

Dear James,

On behalf of the Law Admission Committee of American International School of Law, I am very pleased to announce that you have been granted admission as a full-time student to our independent study program commencing October 18, 2021. Your admission to American International School of Law is evidence of the Admissions Committee's confidence in your potential, as well as recognition of your academic achievements and personal accomplishments. **Congratulations on your admission and welcome to American International School of Law!**

Your first-year term will end on October 17, 2022 and should you successfully pass your first-year classes you will qualify to sit for the June 2023 First Year Law Student Exam. Please remember that your acceptance is contingent on American International School of Law receiving official transcripts. These transcripts need to be in our office no later than 30 days after your acceptance date to meet the State Bar of California rules. Furthermore, you will need to complete and submit to the State Bar a review of your pre-legal education to ensure you have the credits to attend law school.

Please remember in order for you to be admitted to practice law you must successfully pass the First Year Law Student Exam, The California Bar, MPRE and have a positive moral character determination.

Again, congratulations on your admission to American International School of Law and best wishes for your continued success.

Sincerely,

Nitesh Patel
CEO and President
